

AI Project

Project Tasks

- Project Proposal Finalization
- Submit Project Outline
- Define AI Bot Requirements and Success Criteria
- Document Development Process Part 1
- Document Development Process Part 2
- Prepare Final Report Part 1
- Prepare Final Report Part 2
- Prepare Presentation Materials
- Final Review and Adjustments
- Submit Final Report and Deliverables

Literature Review

- Research State-of-the-Art Poker AIs
- Study Game Theory and Nash Equilibrium
- Study CFR and MCCFR Algorithms

Programming

- Design Software Architecture
- Plan Data Structures and Algorithms
- Set Up Development Environment
- Code MCCFR Algorithm Part 1
- Code MCCFR Algorithm Part 2
- Integrate MCCFR with Game Engine Part 1
- Integrate MCCFR with Game Engine Part 2
- Unit Testing
- Integration Testing
- System Testing with Simulated Games Part 1
- System Testing with Simulated Games Part 2
- Analyze Performance Metrics
- Optimize Code and Algorithms Part 1
- Optimize Code and Algorithms Part 2
